*"I suffered from an Achilles right-tendon tendinitis for several weeks. I will never stress enough the efficiency of this treatment since, after 9 sessions, I knew how to walk again in the most ordinary way."*

**Laurent, Belgium**

## THERAPEUTIC APPLICATIONS

- » Post-op rehab
- » Low back pain
- » Rheumatism
- » Sprains
- » Neck pain
- » Osteoarthritis
- » Tendinopathies
- » Frozen shoulder

**① YOUR PAIN IS RELIEVED**

**② YOUR MOVEMENT IS RESTORED**

**③ YOUR REHABILITATION IS FASTER**

## WINBACK TECARTHERAPY

Winback therapy is able to naturally accelerate the healing of muscle and joint injuries. Beyond the healing process, this high frequency energy eliminates muscular and joint pain while releasing poorly vascularized areas (fibrosis, contractures). Movement comes back to life. You will feel the benefits from the very first session.

The therapist uses the Winback medical device with two electrodes on your body.

A non-invasive high frequency current flows through the body. The therapist concentrates the energy on the treatment area.

The session is performed thanks to the therapist's manual expertise and/or with exercises.

Winback Therapy is a natural bio-accelerator that speeds up the body's natural ability to regenerate.

Get back to full power from the first session.
